I PROJECT QATAR

The Qatar National Vision 2030 and the FIFA World Cup 2022 are major growth drivers for Qatar's construction industry. The ongoing implementation of major development projects across various sectors (building, hospitality, tourism, transportation, infrastructure.) translate Qatar's vision as well as the recently-drafted National Development Strategy (NDS) 2017 - 2022, that aims at creating conducive conditions for more private public participation.

The Qatari construction sector is the fastest growing construction market in the Gulf region, with USD 26 Billion allocated for major projects and accounting for 47% of Qatar's total 2017 expenditure. In 2015 alone, 60% of Qatar's imports were construction-related, amounting to a total of USD 19.7 Billion.

Project Qatar is the country's only business exhibition specialized in construction and all related industries. After 14 successful editions, the show promises fast penetration into the country's lucrative construction market, and the opportunity to generate new business leads with companies of all sizes. Project Qatar 2018 is thus a peerless platform, and participation is essential for everyone aiming at seizing a share of Qatar's arena of opportunities.
